Kodiak 700 EPS SE

Tactical Black

\$10,999 MSRP* \$460 Destination Charge*

TOP FEATURES

1. Big-Bore Engine Built to Tackle the Real World

The Kodiak 700 EPS SE offers up Yamaha's renowned riding excitement without sacrificing an ounce of comfort. Its potent 686cc engine is geared for low rpm cruising and smooth, quiet operation, while the enhanced midrange gives you impressive big-bore power exactly where you need it.

2. High Performance Ultramatic® Transmission

Yamaha's class-leading Ultramatic® transmission is proven to be the most durable CVT transmission on the market, combining immediate response with advanced features like natural, all-wheel engine braking for extra control and confidence.

3. Yamaha's Exclusive On-Command® 4WD

With the simple push of a button, the three-position On-Command® 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD. An override button allows the engine to reach maximum rpm in full differential lock mode.

4. Trail-Ready Chassis

With plenty of ground clearance and adjustable suspension, the Kodiak 700 EPS SE tackles rough terrain with ease. Wide-arc A-arms and full-body skid plates ensure the Kodiak 700 EPS SE is able to handle anything the farm or trail can throw at it.

5. Compact Ergonomics

To ease overall feel and boost rider confidence, the Kodiak 700 EPS SE combines big-bore performance with a more compact body design commonly found in mid-sized ATVs.

6. Special Edition Features

The Kodiak 700 EPS Special Edition further enhances rugged terrain capability and confidence with a factory-installed WARN® VRX 25 winch and high-quality painted bodywork.

7. Class-Leading Power Steering

Reduced fatigue, excellent control and improved trail feel all come standard with the Kodiak 700 EPS SE's best-in-industry speed-sensitive Electric Power Steering (EPS).

Kodiak 700 EPS SE

FEATURES & BENEFITS

CAPABILITY

High Performance Ultramatic® Transmission

The Kodiak 700 EPS SE's Ultramatic® transmission features a gated shifter, dual-range (Hi/Lo) drive plus reverse gear, and the most advanced—and durable—CVT drive system available. An automatic centrifugal clutch maintains constant belt tension for reduced wear, and a sprag clutch delivers natural all-wheel engine braking.

Big-Bore Engine Built to Explore

Tuned for strong midrange power, the Kodiak 700 EPS SE's 686cc motor combines big-bore performance with a fun, usable engine character. The result is a torque-laden power delivery that is exciting out on the trails, while still being smooth and quiet when exploring or working on the job site.

Yamaha's Exclusive On-Command® 4WD

With the simple push of a button, the three-position On-Command® 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD. An override button allows the engine to reach maximum rpm in full differential lock mode.

High-Mounted Air Intake

Confidently tackle mud and water thanks to the Kodiak 700 EPS SE's high-mounted air intake layout. The design increases power and torque while providing additional room for on-board storage and easy, toolless servicing of the foam air filter.

Stainless Steel Exhaust

To maintain clean-running performance for years, the Kodiak 700 EPS SE uses a stainless steel exhaust system and features a screen-type spark arrester for great power with minimum noise output.

High-Capacity Radiator

Slow-speed technical riding can place a lot of thermal demands on a liquid-cooled motor, so the Kodiak 700 EPS SE features a high-capacity radiator that delivers plenty of air flow for maximum cooling efficiency, and is positioned high in the frame for optimal protection.

Drive System Air Intake

A high-mounted drive system air intake helps reduce drive system temperatures and assists in keeping water and debris from entering the drive case.

High Performance Tires

Maximizing available traction, the Kodiak 700 EPS SE features 25-inch Maxxis® tires that provide precise steering feel and feedback.

Strong, Durable Brakes

Strong and reliable braking comes standard on every Kodiak 700 EPS SE thanks to hydraulic front disc brakes and a sealed wet rear brake system.

Terrain-Tackling Ground Clearance

To handle nearly any terrain with ease, the Kodiak 700 EPS SE offers an impressive 10.8 inches of ground clearance and full-length composite skid plates for maximum underbelly protection.

COMFORT

Independent Double Wishbone Front and Rear Suspension

Performance shocks with 5-way adjustable preload and an independent double wishbone suspension provide 7.1 inches of front wheel travel and 9.1 inches at the rear, ensuring excellent rider comfort even on the toughest trails.

Class-Leading Power Steering

Minimize fatigue and attack every corner with Yamaha's Electric Power Steering (EPS), the industry's best balance of electric steering assist and positive trail feedback.

Underseat Fuel Tank

An optimized 4.76-gallon fuel tank is located under the seat for excellent mass centralization and improved handling.

Compact Ergonomics

A plush seat improves rider comfort for extended days exploring every trail, while providing ample room for the rider to move during riding. Despite the full-size performance, the Kodiak 700 EPS SE features a more compact body design similar to a mid-sized ATV to ease overall feel and handling.

CONFIDENCE

Aggressive and Durable Styling

Rugged composite front bumper resists scratching and won't rust.

Brilliant Lighting

Paired halogen headlights ensures good visibility, while a handlebar-mounted halogen work light provides additional illumination that moves with rider input for added flexibility.

Winch Package

To give users even more confidence to get through the toughest situations, the Kodiak 700 EPS SE includes a 2,500-pound capacity winch mounted straight from the factory floor.

Ready for Accessories

A range of accessory options were engineered in concert with the Kodiak 700 EPS SE, offering a variety of performance, convenience, protection and styling enhancements with factory-level fitment and functionality. Comes standard with a 12V power point, so you can keep your devices charged too.

Extensive Cargo Capacity

Rugged, large-diameter steel cargo racks with durable wrinkle paint finish can pack a total of 308 pounds combined (110 lb front, 198 lb rear) and an on-board storage compartment keeps things dry in wet and muddy conditions.

Work-Ready Tow Capacity

Center-mounted, heavy-duty 2-inch receiver comes standard on Kodiak 700 EPS SE and can tow up to 1,300 pounds.

Built Real World Tough™, Assembled in the USA

As with other Yamaha ATVs and Side-by-Sides, the Kodiak 700 EPS SE is assembled in the USA to meet Yamaha's exacting standards for durability and reliability.

10-Year-Belt Warranty

The Kodiak 700 EPS SE transmission uses its own cooling intake to maintain proper temperatures, an oversized belt to handle the torque of the large motor and Yamaha's unique sprag clutch to maintain constant belt tension. The end result is a drivetrain built for years of trouble-free service that leaves the competition in the dust, and is backed by the industry's only 10-Year V-Belt Limited Warranty.
